Teaching experience:

Current position and School/organization:

Current grades and subjects taught:

Previous teaching experience:

Have you ever taught Earth Science units or courses? If yes provide details

Where did you learn about this professional development opportunity?

- Email Flyer sent to school CU ES website STAO OAGEE
 Other _____

Please tell us what you hope to gain from this week-long residential science immersion experience?

Please tell us, if you are chosen as part of the first cohort of this course, what personal experience, skills or knowledge you would contribute to the group learning experience?

**Note: Please be aware that a certain level of mobility is necessary to fully participate in this course. We will be walking moderate distances, climbing rock outcrops, working near and in waterways.*

Applications are due by **May 15, 2018**. Successful applicants will be notified after March 30 and be expected to register with full payment by end of April. A waiting list will be kept until all spots are filled.

Send your completed application form by **May 15, 2018** to beth.mclartyhalfkenny@carleton.ca via email (print, scan and email) or mail to
